[REDACTED]

I live in Lymm on [REDACTED] [REDACTED] where there is the proposal to build on the green belt land adjacent to Reddish Crescent. I strongly disagree with this proposal. We don't have the infrastructure nor the need for yet more houses. There are protected beech trees, bats, badgers on this land.

I have lived here since [REDACTED] and have seen our village being over developed. It's time to stop. We need green space. We already struggle to get off our estate and more houses will make it worse.

STOP RUINING OUR GREEN SPACES
