---

Hello

I wish to strongly object to the Warrington Local Plan.

Here are just a few reasons why:

- The Environment, Warrington has a very poor air quality due to too much pollution from road traffic, we need to be making more green spaces, not pulling it up so that the trees than do their stuff and improve the air quality for the whole of Warrington
- Congestion, the M6/M56 congestion is horrendous, without adding more traffic, as is the traffic around town, constant queueing traffic, the infrastructure around the are is just not up to extra traffic
- Local Communities, At the moment there are different communities and villages with different personalities, the LP will just merge them all together.
- Stockton Heath, The village just doesn't have the parking/road structure for all the extra traffic
- Wildlife/Drainage, this will be decimated if you destroy the green spaces
- Affordability, I can't see that houses built in the South of Warrington will fall under the remit of providing social or affordable housing

I understand we need a plan, and houses need to be built, but why all in 1 area of Warrington? Why not take bits of green belt from all around Warrington? Why not improve the Town Centre by getting more dwellings there, and build on brown field sites? Every avenue should be looked at prior to ANY green belt being built on.

Regards,

Jane Gwilliam
