Subject: Warrington Local Plan - Consultation
Date: 30 May 2019 00:26:11

I am emailing with regard to the complicated procedure ordinary residents are expected to go through to simply object to a plan that proposes to completely devastate an area in which they live.

I honestly think that you are carrying out what you call 'consultation sessions' to appear to let residents have their say, only to adhere to a process. This consultation process seems to be pointless because it seems clear to me that you just don't listen to the residents of Warrington. Moreover, I am sure residents are of the opinion that you intend to plough on with the plan regardless of the comments of the people that voted you all into office. Residents know they won't be listened to.

Also, I would suggest your 'online representation form' is so complicated that lawyers would be confused by it. Yet, you refer to it as 'the easiest way to respond to the consultation'. Maybe it is for you!!!

Residents across Warrington are calling out for you to protect their green spaces. Read the local news medias if you doubt this.

You are putting up your hands and referring them to the 'presentations' or 'consultation process'. RESIDENTS ARE TELLING YOU THAT IS NOT GOOD ENOUGH!

Councillors in Warrington were elected to represent the views of the residents. This council is ignoring residents and making it difficult to raise any complaints about them and their plans. You are trying to push through a totally unacceptable 'local plan' that will devastate our environment, cause traffic chaos, increase pollution in an already heavily polluted area and eliminate areas of beauty.

The residents of Warrington REJECT your devastating use of our green spaces. We REJECT your 'consultation process' as it is not viable. We REJECT that the 'consultation process' you offer as it is far too complicated.

Regards

Julie Hunt.

Subject: Warrington Local Plan - Objection
Date: 14 June 2019 12:31:53

I am a resident of [REDACTED] Warrington. This email is to register my strong objection to the Council's Local Plan and particularly the land at Peel Hall. For almost the last 30 years this community has battled against the continual applications by Satnam Millenium to develop the land at Peel Hall. As you are aware this land is currently included in the Council's Local Plan.

Despite the campaign against the Local Plan and specifically the campaign by the community in the Peel Hall area, it appears the Council continues to ignore the Residents, the Residents who voted them into office. I say this because this is what I hear from conversations with other residents and also what I read in the local press.

I am writing to register my strong objection to the Local Plan. My reasons are:-

- The land at Peel Hall should be removed from the Local Plan. Time after time Satnam's planning applications are rejected because they are seen as lacking sustainability.
- It is the last green space in this part of Warrington. When its gone its gone.
- The latest application was for 1200 houses. This would create further transport chaos on our already under stress local transport system.
- The last proposed development would dramatically increase air pollution in an area which is one of the highest polluted areas in the country.
- Schools in the area are already over subscribed. There seems to be no sensible plan to accomodate the extra pupils that would result in building 1200 houses.
- Warrington Hospital which is already under strain would have to accomodate the extra patients generated by 1200 houses.
- Past plans show little respect for the wildlife and the environment in the Peel Hall area.

In my opinion, its about time the Council listened to the residents and remove the land at Peel Hall and step back and revise the Local Plan and remove the green land spaces that are currently included.

Stop applications by Satnam and the strain and stresses it places on your residents and revise the Local Plan.

Please develop a more caring attitude to your community which is woefully lacking as you endeavour to bulldoze this plan through.

Julie Hunt
