

[REDACTED]

---

I have recently attended the Council Development meeting at the Park Royal.

I would like to know if there is a realistic possibility of Application R18/105 going ahead.

The proposed plans are for 495 houses.

I queried a council representative on the night and she said she had not had any plans for development for that site.

However, I have searched the website and found that [REDACTED] of Emery Planning had submitted a plan in October 2016.

Regards
