

[REDACTED]

---

Dear Sir, Madam & to who it may concern

We thought that most of the area of Thelwall was a Conservation Area & therefore should be Protected as such.

We purchased our home within the last year & nothing showed up on the search about this or about the proposed road.

This must have been planned for a while so cannot understand how this has not been pointed out when purchasing as I thought that is the idea of a Search.

I would however like to say that it is so wrong to destroy Green Belt when Warrington has Brown Field Sites it could use which would be more sensible & acceptable to people.

North Warrington does not seem to have been included in any development & has plenty of brown field sites & a good Motorway network.

South Warrington already has traffic problems, getting onto M6 is nearly impossible on some days as is getting in & out of Warrington.

I urge you to reconsider your plans & consider the above around Warrington North if you need to build more homes using Brown Field Sites.

Yours sincerely
