Dear sir/madam

I am a resident of Stockton heath and would like to register my deep concerns and distaste covering the housing proposals in Appleton and grape hall.

The huge number of houses planned will contribute to traffic problems in the village. Swing bridge problems and motorway problems already cause gridlock
Pollution level increase.

Extra burden on already stretched medical devices.

What about schools?

THE ENVIRONMENT OUR WILDLIFE. This is currently an area enjoyed for its wildlife by locals and visitors. Woodpeckers and even a cuckoo was heard this year. The area will be decimated. We are already experiencing global warming what will this development do to contribute to reducing this?

In short this is the most depressing, irresponsible and inconsiderate plans I have ever seen.

How much£ is being made here?.

Your response is appreciated

Sincerely
Anita Gallo
