---

We wish to strongly oppose south Warrington local plan that shows no regard for amenities , services and traffic issues that are already at breaking point.

In addition the green belt will be taken up by more houses when there are other brown field sites that can be used in other areas of warrington.

The green belt is used by so many for recreational and sporting use and will be gone forever .The local plan also shows no consideration to environmental and wildlife impacts .

Please note my comments as opposing the plan .

Regards

Heather Clayton
