I AM WRITING TO OPPOSE THE DRAFT LOCAL PLAN IN THE STRONGEST TERMS.

Specifically:

- There is no excuse for destruction of greenbelt. Any and all development should be on brownfield. If we don't have enough brownfield then don't do the building and tell the government that, they will have to support it as Boris has said "don't build on greenbelt"
- There is insufficient infrastructure to support what we currently have let alone thousands more houses. Specifically, roads, busses, healthcare, education. The plan doesn't deal with any of these properly.
- The housing numbers are too high and need to be revised by government.....don't roll out a plan until they are.
- 6/56 will not bring quality local jobs.

To repeat I OPPOSE the plan entirely.

**Regards**

**Richard Bromley**
