---

Having viewed the proposed local plan for South Warrington I am concerned about the number of homes proposed.

I already experience problems at the more major junctions since the recent developments in the Pewtwerspear area and have noticed an increase in traffic at all times of the day.

I do not understand how the area can sustain a development of this size in addition to the homes already built. It will have significant impacts on the quality of the air due to increased traffic, ability to commute without being further held up and the impact on local services such as schools and doctors etc.

i believe the numbers should be addressed so this does not involve such huge numbers of houses and the moving of the green belt boundary.

Regards

Gill Ledger
