Attachments: [REDACTED]

Please find our comments to the request for consultation on the WBC Local Plan 2021 for your consideration.

Our response is from two families that have discussed and analysed the Proposed Plan in detail. Having lived in the Borough for over 25 years, and having brought up our families, we are keen to help develop the economy, environment, and social equality across the Borough and the welfare of the current and future residents.

As such, we are happy to spend time with the Council Officers to go through our detailed analysis and comments, with a positive approach to build a better future for the Borough.

Because our response and analysis has been so detailed, we would welcome discussing your responses to the issues and concerns that we raise.
