Dear Sirs,

I wish to object to you Local Plan, especially building 136 homes to the western side of the current development behind Sainsburys.

Firstly Rushgreen road is very narrow in places and of course is also very busy. In addition parked cars at various points along the road make it very hazardous to get past them at certain times of the day. The infrastructure to accommodate an increase in housing population would not be acceptable.

Secondly the increase in Air Pollution in this area would not be acceptable with the traffic from a further 136 houses, accepting the fact that each house would have 2 cars that would be 272 cars using and polluting the road.

Kind Regards

David Johnson
