>

> I write in relation to the above planning under consideration

>

> I note the open spaces and activity areas and would like to put the equine users included in the multiuser areas as this term is an all encompassing term

>

> The inclusion of the equine is well documented as a major impact to well-being and exercise for both the user and those around them

>

> I trust that this will be taken into account in your deliberations with a positive effect

>
