Having reviewed the amendments the the Local Plan, I would like to raise the following issues as I still believe that not enough credence or consideration has been given to :-

1. The Air & Noise Pollution that will result from the proposed Western Link . There is still no clarity about how the above will be effected , mitigated or monitored !

2. The evidence that the Western Link will still be required which will be at great monetary and ecological cost to the Council, area and the Council tax payers of WBC now that the Slutchers Lane is in operation and that Port Warrington and the South West Urban extension have been removed from the 2019 plan.

Could you please advise accordingly ?
Would you also add my email to the database so that I will receive ongoing updates and communication about the above?

Regards,

Jill A Evans .
