Enquiry Updated Proposed Submission Version Local Plan

Dear Sir/Madam,

I write in the hope you can help me with some information.

I have read that The Updated Proposed Submission Version Local Plan proposes 816 homes per year for an 18-year period (14,688 total).

Please could you confirm how many of these homes are projected to be built on sites where 20% affordable contingent will be applicable comprising 50/50 split for affordable rent/buy?
Similarly, could you confirm how many of these homes are projected to be built on sites where 30% affordable contingent will be applicable comprising two thirds/one third split for affordable rent/buy?

If you could help me with this data, I'd be grateful.

Kind regards,

Claire Smith
