Subject: Objection to development of land near Stockton Lane, Grappenhall

Dear Sirs

I would like to express my objection to the above proposed development. I live in Grappenhall and this is the only place left in Grappenhall where I can go for some exercise whilst also being able to appreciate the natural beauty of this part of the world. I work from home (no doubt along with increasing numbers of people) and therefore it is really important that these spaces are retained for both mental and physical health. It takes half an hour to drive across Warrington to the nearest large leisure centre (should be 8 minutes but traffic is so bad it takes this long) and so having something within a walkable distance is hugely important to be able to access open space quickly and easily. To develop this land will take away the last bit of countryside in Grappenhall and fundamentally change the character of the village and have a significant impact on the people of the village.

Yours faithfully

Rebecca Hetherington
