---

My family and I have been residents in Appleton for in excess of fifty years during which time we have witnessed the continuous loss of green belt land to the south of us, together with the ensuing build up of traffic

I believe the plan to be unsound in several respects

The increased number of houses together with the increased number of vehicles is not sustainable

The proposed development will destroy much of the remaining attractive green belt land between existing new development and the M56 motorway

Planned infrastructure of road improvements, additional schools and medical and leisure centres are at best vague

The destruction of green belt land is at odds with recent government policy

M A Bromley
