Hello

I'm am new to the area and completely flabbergasted at the plan put forward.

The council obviously doesn't live in this part of Warrington. For the amount of houses you want to build, new roads must be accompanied. The traffic is terrible and will only get worse. This is not a sound plan.

I moved to this area because of the green belt. Because my child can see horses, cows and sheep on our doorstep. Because we can be enjoy nature that the green belt provides. There is no need to build on all of the land proposed in the local plan. This is not a sound plan.

This plan will destroy all I love about living in this area, the landscape and the character of our villages. This is not a sound plan.

There is no need or justification for the number of houses to be built according to this plan. Where are the people coming from? Where will they work? Do we want a slum of empty houses? No. This is not a sound plan.

Please go back to the drawing board. Please listen to the people who live in this area. This is not a sound plan.

Sincerely
Jennifer Boyles
