We are objecting to the building on the land between Spark Hall Close and Tarporley Road. My wife and I live [REDACTED] We love the fact that it is a village. When we approach from the M56/Jn 10 we can see the village over the fields. There are old houses and St Matthew's church giving the feel of an old village. It's this view that keeps Stretton a village.
Building on this land would lose Stretton its identity as a village. It will just become a set of traffic lights in a built up area and the words 'Stretton village' will have been lost forever.

Regards,

Garry and Helen Simcock
