Please register my objection to the local plan.

The infrastructure in the area is already overloaded and cannot take more vehicles .
The loss of greenspace is unacceptable and you are trying to turn this area into one massive housing estate which also isn't acceptable. You should consider building on brownfield sites in and around Warrington - there is plenty of land around the town that needs remediation, is better served and would improve the town significantly.

Stop destroying the good areas because it's cheaper to do so, invest in the surrounds of the town.

Regards

Gareth
