---

To the Council,

I'd like to express my concerns about the development of housing off Stockton Lane and surrounding area. As a member of the GVLTC Club that is accessed by Stockton Lane. I am very worried and concerned about how building and future traffic will impact on the area. Stockton Lane is a very restricted lane as it is and I can only see it being totally inadequate for any serious building and new residential traffic needs. Are there any plans to build any new access roads to the housing areas that are proposed.??

Yours Sincerely  
Alan Austin
