THE IMPORTANCE OF RETAINING OUR GREENBELT

- Physical mental health and wellbeing - green spaces are essential.
- Relieves obvious pressure on existing poor infrastructure.
- Provides 'buffer zones' between our unique villages to preserve the special character of South Warrington.
- Prevents pressure on already congested roads.
- Helps with the poor drainage problem already in existence in our area.
- Supports innumerable wildlife species, ancient trees and hedgerows, and provides top-quality pasture and farmland.

For these reasons I find the Local Plan proposing to release our valuable Thelwall Heys from Greenbelt in order to build 300+ houses a total disaster and therefore oppose it because it is unsound.

Ray Brown
