Subject: Objection to Warrington's Local Plan
Date: 14 November 2021 08:12:31

John Price of [REDACTED]
Would object strongly to the Warrington Local Plan 2021.

On the grounds of:-

- Precious wildlife will be destroyed.
- No adequate medical facilities or schools will appear based on previous promises not being fulfilled.
- The existing roads are rubbish and no provision will be provided to to elevate the existing mess.
- Massive air, light, water and sound pollution will be horrific.
- Geographically this is a ridiculous location as the area is already overcrowded and access is poor already.
- These houses are not needed and the calculations to justify them is flawed.
- Employment and transport needs are changing and this plan is out of step with the new trends needed in the future.
- Do not build on green belt use brown field sites in local urban areas and protect Warrington's precious countryside.
- This plan is flawed and should be scrapped.

Signed - Freeman John Price B.Ed. FUCL
