---

very strong planning policy. Very Special circumstances are needed to build inappropriate development on Green Belt land.

GreenBelts have five purposes -----

- 1) to prevent built up urban areas from sprawling out into other land which is not built up.
- 2) to prevent towns and villages from merging into one another.
- 3) to prevent built up development encroaching into the Countryside.
- 4) protecting the historic character and setting of a town or village.
- 5) Directing new built up development to areas of land in need of regeneration.

The DRAFT WARRINGTON LOCAL PLAN proposes to break all these purposes No very special circumstances have been provided

The new Local Plan is not sound.

Yours Faithfully
