Dear Sir/Madam,

I would like to raise my considerable objection to the plans to create an urban expansion, which would destroy the green belt around Thelwall Hayes. It is heartbreaking to think that the removal of wildlife habitat and reduction in air quality through increased air pollution (from increased traffic to the area through urban expansion) is even being considered. This outrageous proposal must not be fulfilled.

Furthermore, I strongly believe that the proposed urban expansion will significantly mar the character of the existing village. I am a concerned Warrington resident and I object to the urban expansion in every possible way.

Your Sincerely  
Mrs Susie Logan
