Hello All

You may not know but the local plan intends to install the Strategic Infrastructure road from the Spire entrance at Firtree close across the opposite field to Spark Hall Close. This is the first part of the plan to allow houses to be built on the fields. However, the additional worse outcome is that they intend to upgrade Spark Hall close to a proper wider two way road so that it will become a rat run to bypass the Cat & Lion junction. This is outrageous and needs to be stopped.

I would appreciate it if you would send the attached letter of complaint to the Local Plan email address.

Firstly, if you agree to do it, it must be done before 5pm tomorrow night.

Just download the letter and complete your address and your signature details highlighted in yellow.

Save the file as..... 'your name' letter of objection cat and lion conjection.

Then send it to:

localplan@warrington.gov.uk

Hope you can do this as every letter of complaint is needed. you can submit more than one letter, so one from husband and wife would be good.

If you know anyone else in Stretton then please forward it to them for immediate action.

Remember deadline is tomorrow at 5pm

Kind Regards

John
