Hi

My name is Cordelia [REDACTED] I like living in Thelwall and enjoy going for walks in the green space around me. The motorway is very busy and I can hear it from my house in the garden. The noise from the road by my house is also loud and the cars drive very fast. I have been stuck on the motorway in the car before and if a big unit is built by the junction of the motorway, I think the traffic will be a lot worse across the viaduct and around my house. I am concerned about the climate and the quality of the air I breathe. I think the extra traffic from the houses that will be built in Thelwall and the employment unit will make things worse. I enjoy seeing the wildlife in the fields, the birds and bugs and we need to look after our wildlife and trees to help our planet.

Cordelia Hinde
