Dear Sir/Madame,

I am writing to submit my objection to the proposed local plan referenced in the subject line of the email.

The plans do not:

- Justify the impact and destruction of green belt
- Address concerns regarding the increased reliance on cars to an already over congested area of Warrington, or poor air quality as a result of the increase of car reliance
- Justify the destruction of the distinct character of the local landscape and villages
- Address concerns with regards to increased suitable infrastructure (schooling, hospital, healthcare etc)

Please do not destroy the beautiful natural surroundings in which we live.

Kind regards,

Ryan
