Subject: Proposed Submission Version Local Plan 2021 (UPSVLP 2021)

I am writing in objection to the proposed local plan in Grappenhall. All our beautiful open spaces are being ruined by over development. Housing is needed however surely there are lots of brown field sites that could be developed to provide homes etc without destroying the countryside and affecting the wildlife. Some of the homes to be built are not even in keeping with the environment they are more suited to an urban development.

Please reconsider for the future of our countryside

Regards

Sue Matthews
