**Subject:** Objection

I want to object to the local plan.

We should not build on green fields and we need to protect our environment. We should recycle brownfield sites and not aim to build more houses than we actually need.

I don't want to live in a congested area, I want to be able to breath without choking and I want to be healthy.

I am 9 years old and my whole future is at stake through this plan which could ruin my life as I know it.

Thank you  
Jenny Smith
