Subject: Local plan objection

I want to object to the local plan.

The number of houses and employment land required doesn't stack up to what we actually need.

We need to keep our greenbelt and protect it to help the environment, wildlife and climate as well as the health needs of the people who live here. We need to use brownfield sites instead.

The roads already have too much traffic but it isn't safe to ride a bike into town and the bus service doesn't get me where I need to be.

The plan will ruin the lives of everybody that lives in south warrington except for the council and developers and that just isn't fair.

Jake Smith
