Dear Sir.

The contents of this email contain a view and a plea that you have heard from thousands of people. But do you listen, do you hear and do you care? . Given the way that despite overwhelming arguments against this, you have allowed the devastation of the green belt in South Warrington I fear this , like so many other pleas will fall on deaf ears and greed will win . If any of you retain just a tiny bit of moral courage, and care for the few fields and pleasant walks left in this already overpopulated area please have the courage to stop this. Otherwise all we can look forward to is an urban jungle of permanent traffic jams, with no new infrastructure to support the overpopulation . Shame on you.
