**Subject:** Objection to proposed local plan

Dear sir/madam

As a lifelong resident of grappenhall I am dismayed at the revised local plan.

How does this tie in with the latest government guidance on use of green belt ? It feels as though this should now be reassessed to account for this new position.

I am unclear on the new road proposals, there was no clarity in the details you shared.

How are you going to ensure that brownfield sites are used first ? Surely there should be annual checkpoints assessing real life data to ensure that your estimated levels of growth are correct , they still seem to be incredibly high.

Also there was no comfort on air quality , warrington pollution levels are amongst the worst in the country . This is going to make it even worse , a very concerning position.

I have seen almost nothing on the concerns I previously raised about the ecological impact - surely this needs to be considered thoroughly before releasing green belt.

The services in our area are world fully inadequate, information on this was sketchy , you need to sort this out before progressing .

To be clear I strongly object to this proposal . Please advise on the above points Regards Kathryn leach
