Subject: Local plan objection

Dear Sir, Madam

I am writing to object to the recent local plan... I am objecting for the following reasons

1. The predicted growth numbers are unjustified and based on outdated data - 2014 data is an unsound base to use as many things have changed since, I believe that the 2021 data would give a very different requirement
2. I object to the use of the greenbelt and believe the council should have a brownfield first policy especially as we learn how important the green lungs of Warrington are in the current climate emergency.
3. The current infrastructure cannot cope with such an increase in housing, already the transportation links are unacceptable and air quality is poor, not to mention a hospital which is on it's knees with current numbers in Warrington.
4. I do not see any justification for the release of the Greenbelt and having lived in Warrington for 60 years I am appalled at the potential destruction to our Villages.

Please keep me informed of any updates to this plan, and acknowledge my Strong Objection

Regards

Wendy Stout
