[REDACTED]

I wish to object to the local plan, as it is obvious that the roads cannot cope with an increase in traffic, never mind the increase in air pollution which would arise.

I object to the fact that the council will be using green belt land when there are brownfield sites that could be used.

I object because the infrastructure will not be able to cope, already the traffic tailbacks are a real problem whenever the bridges over the Manchester Ship Canal are closed or whenever there is an incident on a nearby motorway.

South Warrington is being suffocated by the amount of traffic and air pollution . Please don't add to it
