Subject: Objection

I'm writing this email as an objection to the local plan development!

I disagree that the release of more green belt areas should be used before all the brownfield land has been used by the council first. As it currently stands the area in Thelwall heys has one of the best agricultural lands and it would be wasteful of us and morally wrong to start developing on this land before using brownfield.

I have so many reasons to object on this

:- Infrastructural is not ideal,
pollution for local area, wildlife in the green belt will be affected are just a few

Very disappointed with government and local council!
