Subject: Local plan objection

To whom it may concern

I totally object to the local plan

As you can guess by all the correspondence you are getting the Local plan you have proposed will totally destroy the village of Stretton, you propose a road right through green belt land which is going to be paid for by a contractor does seem a little like bribery.

Warrington council have not made any provisions for any mayor traffic links and not made any allowances for the resulting pollution which I believe we already exceed the safe levels in parts of warrington so maybe you might get taken to court like a council did in London and be blamed for future deaths.

You have not proved the need for all these houses in green belt land and as far as I can see you are just trying to get more income to pay of the billion pounds plus which you have put the people of warrington in already.

Regards

Dennis John Buckley
