Subject: Opposition to Local Plan from Winwick Resident

As a resident of Winwick village I write to oppose the local plan which has been proposed by Warrington Borough Council particularly the sites at Peel Hall and Golborne Road . I oppose the proposals contained within the draft plan based on the following issues:

- The proposal of an additional 13330 + homes within the parish will only increase pollution resulting from increased car activity, this will have a direct impact on health of local residents,
- The village is already at a crisis point and traffic measures such as one way systems on Hornby Lane are being ignored with cars now traveling the wrong way,
- No new roads planned with the village being the main transit route for the developments,
- Loss of green open space will have a direct impact on local wildlife
- The loss of a section of land with historical significant which features in the local history of the Church and was a major point of conflict during the English Civil war
- The developments will lead to Urban sprawl and will result in the loss of arable land which has been farmed for centuries.,
- Lack of local amenities such and healthcare, dentists and school places.

Regards,
John Gannon
