To: Local Plan
Subject: Objection

I wish to object to this local plan because:

1. I object to you building on greenbelt land when there is brown field sites available to build on.
2. 6/56 development plan will remove a huge area of greenbelt. It will increase traffic severely when the area is already gridlocked regularly.
3. I object to the pollution levels which will increase with all the new traffic, as it is high all ready.
4. The infrastructure is presently not working and cannot cope with the present traffic. It will become severely impacted, the whole town becomes gridlocked regularly.
5. I object to you cutting down trees which provide oxygen and I object to you killing nature and animals unnecessarily.
6. I object to Warrington becoming a city.

There is no mention of increasing medical services or schools yet you want to builds thousands of houses.

Regards,

Steven Wernham
