Subject: Local Plan objections

Please note my objections to the proposed developments in Lymm, on Rushgreen Road and Pool Lane/Warrington Road.

Whilst I appreciate the need for some additional housing provision these proposed sites are in areas where the local road infrastructure is already busy and additional traffic will create delays, impair road safety, make the narrow pavement unsafe to pedestrians, and environmental concerns. A 'package of transport improvements' is not possible locally due to narrow rural roads and housing near to these roads. Already in Rushgreen Road vehicles, including buses, mount the kerbs to get through. Another 200 plus vehicles in this area with single entry from the development will cause potential danger to other road users.

Regards,
Angela Burns
