To whom it may concern

I wish to object to the proposed local plan on many grounds, a few of which are listed here:

1. The proposed number of houses to be built uses the upper thresholds from the standard model and does not consider the 2018 ONS figures which predict a lower growth rate for the town.
2. The use of greenbelt land and the resulting detrimental effect on wildlife habitats appears to fly in the face of everything that the government has said during COP26 to protect the environment.
3. The 'promise' of infrastructure rather than the infrastructure being put in first is nonsensical, and in my opinion will never be funded.
