Dear Planning Office

So at what point are you going to protect the green belt areas in our - and your - town?  
And when are you going to ensure that new developments include shops, supermarkets, chemists etc?

Stockton Heath is a lovely place to live and attracts lots of people from outside the area but the traffic congestion is getting to a point where everything is grid located, you can't park and the new housing estate being built in Grappenhall Hayes is just making things worse.

Regards  
Jane
