

12 November 2021

To The head of Planning

Recently I wrote and delivered to your ~~two~~ Time Square office a letter expressing my concerns about proposed housing and road developments in the South Warrington Area

I recall writing that I felt angry over these developments and my reason why I told you about brown fill land in the town that could be used for housing and there is much of it

I asked if this is the case, why build on green belt? I asked you if you had informed environmental groups concerning these plans.

And I am yet to receive any

reply back from you concerning my  
concerns

I asked to meet you to talk about  
this and I asked for the address of  
the developer concerned so that I can  
tell them my concerns too

As a person who lives in South  
Warrington I wonder why Warrington Council  
does not want to speak to me.. Am I too  
much a 'little person' for you to bother  
about?

If that is the case I shall be writing  
to various persons of more 'importance' than  
me to support me:

I shall also be making the media  
aware.. Ignoring me is not going to make  
me go away. I have a concern for what  
is going on with our Eirth and this  
proposed development on South Warrington  
Greenbelt is not making the problems  
any better.

Yours faithfully  
Susan Moran
