

Dear "Local Plan",

A lot of people locally are very concerned about the Local Plan for Warrington and district.

Briefly my response is:

1. There is no justification for predicted growth;
2. no need for the volume of housing and mass of employment land.
3. no justification for the scale of green belt release.
4. no need for the harm to air quality and local ecology.
5. no need to destroy the landscape and character of our villages
6. there is no clarity on the means of delivery
7. no explanation of how the already poor transport infrastructure of South Warrington can cope with increased levels of traffic.

Please re-think the Plan.

Yours sincerely
Joan Shaw
