HAVE TRIED TO EMAIL
BUT REJECTED!

I have read the local plan of the above.

I have lived in Thelwall for 54 years and yes we have to move with the times but building on Green Belt when planning in 2004 said this land should not be developed. We have not had any new roads built in the area to take additional traffic which new houses create.

Giving up this land is so wrong. - If houses get built it could cause more flooding and what about habitat which will be lost if the Green Belt is lost. Climate change is very much in the news and I don't think the government would approve of new houses and what that would bring to the local environment.

PLEASE PLEASE do not give in to planners and loose our rural area.

Glenys Owen Reynolds (Mrs)
