	Yes	No
Legally Compliant		X

Draining marsh land to build on will increase the already high risk of flooding

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

By building on marsh land/ nature area on fiddlers ferry area it will push the water else where, to other properties. After the terrible flooding in much of WA5 this year I can't believe that getting rid of any flood planes is a consideration. The plan for the site needs to only build on the vast 'brown field' site that's already there and the natural habitat, home to many species of plants and animals, absolutely crucial in helping to protect penketh from flooding must be left alone.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
