PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate?

From the drop down list please select one option.

MD2 South East Warrington Urban Extension

2. What does your comment relate to? Please select one option.

None of the above

3. Do you consider the Draft Local Plan to be: Please select one option in each row.

	Yes	No
Legally Compliant		X
Sound		X
Compliant with the Duty to Co-operate		X

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate.

Please be as precise as possible.

There's been a significant amount of development in this area in recent times already, which is still in progress, mostly on green belt land as far as I'm aware. This latest proposal seems completely excessive and beyond what is currently needed with the loss of yet more green belt. There doesn't appear to be any thought going into the increase in traffic and air pollution in Stockton Heath village which is already choked up with traffic at peak times and when the swing bridge is off or the motorway closed which is a common occurrence. Then there's the question of the extra schools and medical facilities needed which don't appear to be guaranteed at this point. Overall I just don't think this is a sound plan for the area with the loss of yet more green belt when I'm led to believe there are still brownfield sites available for development.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

Use all available brownfield sites before even considering tearing up the green belt. If then it's really necessary things like air pollution, traffic problems and extra services, schools, medical facilities etc should be factored in before any future development.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
