## PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate?

From the drop down list please select one option.

Plan as a whole

2. What does your comment relate to? Please select one option.

None of the above

3. Do you consider the Draft Local Plan to be: Please select one option in each row.

	Yes	No
<b>Legally Compliant</b>		X
<b>Sound</b>		X
<b>Compliant with the Duty to Co-operate</b>		X

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate.

Please be as precise as possible.

The plan shows increased traffic congestion and traffic delays, which will lead to higher air pollution. Joe Public is in no rush to buy an electric car, or indeed can most people afford one. The public will not solve the rising pollution problem and whilst charging schemes raise money for the council they do nothing for the environment.

There is no green plan for the homes which are to be built, they will be built using the same environmentally unfriendly materials, to the same poor standards as before with inadequate insulation and gas heating systems.

The planners are negligent in their responsibility to both the environment and the people of Warrington. May you hang your heads in shame at the damage you are doing to this town

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

Rip it up and start again. Give us something fit for the 21st century, that is not about making money but has the necessary infrastructure for a sustainable future and where the environmental impact is significantly reduced.

This is green belt...plant trees on it and find somewhere in the brown belt for homes built using environmentally friendly materials and affordable.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

Yes, I wish to participate at the oral examination

**If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:**

The council planners need to be held to account for this shambles and assault on the local environment.
