PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate?

From the drop down list please select one option.

Plan as a whole

2. What does your comment relate to? Please select one option.

None of the above

3. Do you consider the Draft Local Plan to be: Please select one option in each row.

	Yes	No
Legally Compliant	X	
Sound		X
Compliant with the Duty to Co-operate	X	

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate.

Please be as precise as possible.

No as I still believe that the plan is unbalanced in terms of developing on too much green belt around Warrington which will fundamentally change the town. Also, the infrastructure - either now or as proposed does not adequately support the development. This is linked to the unique characteristics of Warrington - river, canals and motorways which cause numerous complicated transport related issues which have not been taken into account within this plan.

5. If you answered 'Yes' to any of the options in question 3 then please give details in the box below the reasons why you support the legal compliance or soundness of the Draft Local Plan or its compliance with the duty to co-operate.

Please be as precise as possible.

I didn't want to say yes but feel that only option I have. I clearly hope that WBC have legally complied with the process of producing a local plan. If they haven't all officials and councillors should be sacked !!

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

- remove any developments that uses green belt. I believe WBC should be seeking to protect our green belt (for all the health, community and environmental reasons)
- bring forward more developments in brownfield sites
- further review the impact of the proposed development on air pollution levels. Warrington already has high levels - further work is required in this area to reduce this levels significantly (anyway, even without new houses proposed)
- review the infrastructure provided to facilitate walking and cycling routes around Warrington. Whilst there are some good paths already in existence and proposed - this needs to be reviewed to ensure corridors and connected to major commuter, transport and residents route in and out of town and around Warrington. There is not enough connectivity currently

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
