PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate?

From the drop down list please select one option.

GB1 Warrington's Green Belt

2. What does your comment relate to? Please select one option.

Both of the above

3. Do you consider the Draft Local Plan to be: Please select one option in each row.

	Yes	No
Legally Compliant		X
Sound		X
Compliant with the Duty to Co-operate		X

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate.

Please be as precise as possible.

Uses green belt when brownfield is not being redeveloped. The plan does not show convincingly what the exceptional circumstances are for developing green belt land. This will result in the destruction of the landscape and destroy the character of the villages. Developing green belt will add to the global warming in many ways, eg loss of plants, increased carbon dioxide due to more traffic, emission of carbon dioxide due to production of building materials. This will put pressure on Warrington requirements to reduce carbon emissions. There is no explanation of how the already poor transport infrastructure of South Warrington can cope with the vastly increased levels of traffic. There are frequent long traffic holdups at peak times and this will be vastly increased if there is a hold up on the M6 combined with the closing of the swing bridge. In that situation the roads would be paralysed for extremely long durations. The air quality would be greatly affected due to the increased traffic, affecting the school; pupils and elderly and those who have breathing problems. These new health problems will put more pressure on the Warrington and Halton NHS which is already struggling to meet its targets for all aspects of health care. The vastly increased population would struggle to access GP surgeries as the current medical centres are over subscribed. This is on top of the problems resulting in the huge house building and destruction of green belt in Grappenhall Heys.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text.

Please be as precise as possible.

Use brownfield sites to preserve the green belt which is necessary for Warrington to reach its reduction in global warming targets and improve the health of the people of Warrington. Stop the building of houses on Thelwall Heys, This is a significant change as it was not included in the 2017 and 2019 plans and which was rejected by Warrington Council in 2004.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
