Please be as precise as possible.

The green belt should continue to be protected. There is flooding already and the fields are there in part to protect this. We live in a world that is already under treat and in the interest of global climate change removing the green belt further compounds the issue by further reducing the natural barrier. There is plenty of brown belt that can be developed but as it costs the contractor more they don't apply. Stand your ground and stick with your conscience rather than your bank bank balance!
